December 11, 2018

Dear Jan Kotarski, President of the Polish Society of Gynecological Oncology,
It was such an honor and pleasure to recently attend the Polish Society of Gynecological Oncology Congress in Lublin. It was nice to see so many old friends and meet many new colleagues.

IGCS currently has over 2,600 members from over 90 countries. Our multidisciplinary membership includes gynecologic oncologists, surgical oncologists, medical oncologists, radiation oncologists, pathologists, basic scientists, allied health professionals, fellows-in-training and residents. The Society has experienced tremendous growth in the past two years which has encouraged several international organizations to partner with the IGCS. This growth has expanded IGCS's global reach in both high, middle and low resource countries we are expected to reach approximately 3,000 members by 2019.

Expansion has occurred via regional society partnerships allowing members of the regional society to be members of the IGCS through a Memo of Understanding. We would welcome the members of the Polish Society to be a part of IGCS through this mechanism. As I mentioned during our meeting, we are happy to have a conference call to discuss this opportunity further.

IGCS's Annual Global Meeting, held in a different part of the globe each year gathers over 3,000 gynecologic oncology professionals from all over the world. IGCS provides education to its members and meeting attendees covering topics such as breast, cervical, ovarian, uterine, vaginal and vulvar cancer. The latest guidelines, results and summaries of clinical trials, upcoming drug and innovative therapies are extensively presented at the Global Meetings.

I have asked Mary Eiken, the CEO of IGCS, to contact you in reference to the Strategic Alliance Partnership Program.

Again, thank you for your invitation.

Looking forward seeing you in Rio de Janeiro, 2019.

Roberto Angioli, MD President IGCS

CC: Robert Coleman, MD IGCS President Elect
Mary Eiken MS IGCS CEO
