

APPLICATION FORM FOR the NATIONAL REPRESENTATIVE OF POLAND

Name:	Marcin
Last name:	Bobiński
Country:	Poland
Hospital:	I Department of Gynaecological Oncology and Gynaecology, Medical University of Lublin, No. 1 Independent Teaching Hospital
Current position:	Senior assistant

Dear Friends,

My name is Marcin Bobiński, I work as post-doc in Medical University of Lublin. I am an enthusiastic and dedicated person with a strong interpersonal skills and ability to easy adjust to changes. I am an active member of ESGO/ENYGO since 2013. I actively took part in ESGO congresses (Liverpool, Nice, Vienna) and workshops (Warsaw, Leuven, Tbilisi).

In 2014 I started to collaborate in ENITEC group, this activity led me to rising many friendships, and fruitful scientific projects. In 2017 annual ENITEC meeting was held by my centre in Lublin, for the first time in Poland.

My major scientific interests concentrate on uterine sarcomas, since 2016 I am an author of reports regarding these tumours in every LiFE (Literature for ENYGO) issue.

Recently ENYGO activity in Poland was increased by establishment of Club of Young Gynae-Oncologist, that I am co-founder. If I would be elected as National Representative of Poland, I am planning to concentrate on two main goals:

- Gain more visibility for polish activities among ESGO community
- Encourage young gynae-oncologist from Poland to take part in international collaboration

I am going to achieve it by sharing experience in international collaboration with my colleagues and promoting their achievements, both in clinical practice and science, among doctors across the Europe. Obviously, it will not be possible without support and participation of young gynae-oncologist community in Poland so I strongly count on Your help and confidence.

I will do my best not to lay You down.
